

ENGIN NBN

Standard 100GB Plan

Critical Information Summary

INFORMATION ABOUT THE SERVICE

SERVICE DESCRIPTION

The Engin NBN Standard 100GB plan is an internet service provided over the National Broadband Network (NBN) and is available in NBN enabled areas.

MINIMUM CONTRACT TERM

24 months

KEY DETAILS

The Engin NBN Standard plan includes 100GB of data, Interface speeds 50/20* Mbps. Your data allowance includes uploads and downloads. Any unused data allowance expires monthly. If you use all of your included data within a billing cycle, the speed will be limited to 64kbps until the next billing cycle commences.

*Interface speeds refer to the speed to the fibre technology installed at the customer's premises. They are not necessarily equivalent to the download/upload speeds you will achieve in practice. Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded.

STANDARD INSTALLATION REQUIREMENTS

Standard Installation is included with your plan and is provided to the first telephone point in your premises along with an NBN suitable modem. A 240 volt power supply is required and you must ensure such a power supply is available. In the event of a power outage,

your services will not work unless you maintain a back-up battery. If you take up an NBN service, you will not be able to move back to a copper service.
